**2nd Quarter 2015 Earnings Release in IFRS**

## 2Q15 HIGHLIGHTS

**Consistent market share gains**  
**Sales growth excluding World Cup effect (+0.6%)**  
**EBITDA margin of 6.0% (30bps higher YoY)**

- Consistent market share gains.** Based on IBGE retail sales performance (PMC) for the first five months of the year, the Company increased its market share. In 2Q15, net revenues were R\$2,107.3 millions, a decrease of 10.1% YoY, due to: i) strong comparison basis (SSS of +24.5% in 2Q14); ii) the effect of the World Cup in the sales of image and iii) more challenging macroeconomic environment. In 2Q15, same store sales (SSS) shrank by 12.8% reflecting a drop of 15.1% in brick and mortar store sales and 0.4% in e-commerce sales. Excluding image category sales whose sales dropped by 52.8% in 2Q15, sales of other categories increased by 0.6% compared to 2Q14.
- EBITDA margin reached 6.0%, 30bps higher than 2Q14.** Despite lower SSS, the Company reported higher EBITDA margin reaching R\$126.6 million. The result reflects: i) gross margin gain of 280 bps (due to better sales mix, the start of charging for freight and assembly, increase in the participation of financial services in our sales and better negotiations with suppliers); ii) better control of SG&A expenses and iii) results from our JVs (Luizacred and Luizaseg).
- Luizacred and Luizaseg presented excellent performances once again.** In 2Q15, equity income grew 2.7% YoY to R\$20.8 million. Luizacred enjoyed an increase in its cardholder's base, experienced higher revenues, maintained delinquency under control and reached R\$33.5 million net income, for annualized return on equity (ROE) of 25.4%. Luizaseg posted 38.4% rise in revenues and net income of R\$8.2 million (+84.4% increase YoY), for ROE of 40.9%.
- Net income was R\$3.0 million in 2Q15:** Despite higher gross margin and EBITDA margin, net income was impacted by a lower dilution of fixed expenses and higher financial expenses, as a result of higher interest rates in the period.

## MESSAGE FROM THE EXECUTIVE TEAM

**#abraceonovo (#embracethenew) Movement.** The internet phenomenon and the greater use of mobile devices such as smartphones and tablets, is changing peoples lives for better and Magazine Luiza wants to help our clients to embark on this digital inclusion. As a result, we've launched internally a new cycle of our strategic planning, which we named **#abraceonovo (#embracethenew) movement**. This movement aims to promote a significant **digital transformation** in the Company. Our goal is to transform Magazine Luiza, from a traditional retail Company with a strong e-commerce operation into a truly digital Company, with physical locations and human heat.

**As a first step of this digital transformation, we've set up Luizalabs, our own developer of ideas and technological solutions.** Luizalabs in charge of development and support this digital transformation project, they are responsible for our e-commerce as well as brick and mortar stores. In addition, we also invested to upgrade our multichannel operation, promoting important changes in our logistics and marketing actions, taking into account the different sales channel as well as the profile of over 40 million customers.

**We are now starting a new phase of this digital transformation, with the digitalization of our stores:** i) implementing Wi-Fi network in our stores and ii) introducing mobile devices (smartphones) to our salesforce (mobile sales), providing a new shopping experience to our clients, faster and friendlier. Theses mobile devices are also helping our assemblers (mobile assembler) in the assembly process at our clients' homes.

**Currently our e-commerce already represents 18% of sales and the majority of the clients already are multichannel.** The multichannel clients are more loyal, buy more often (3x a year, on average), more categories (4x) and more products (8x) when compared to regular clients. In addition, the multichannel clients have a greater propensity to go for the Luiza Card and usually have lower delinquency rates.

**In 2015, our marketing strategy includes a soccer sponsorship on Globo TV, together with the "Condo for you" promotion.** In July, we announced the first winner of the promotion. In the same month, we kicked off the second phase of our campaign when we will raffle, not only another Condo (equivalent to R\$1 million cash award), but also a new car every month from July until the end of the year. This promotion is valid for purchases made in all of our channels.

**The retail sector is facing a period of significant adjustments within the Brazilian economy.** However, we remain confident in our ability to grow, to gain market share and improve our operational efficiency. We are investing and focusing on strategic projects that aim to improve our multichannel business model and our profitability.

The Executive Management Team

## OPERATING AND FINANCIAL PERFORMANCE

Magazine Luiza ended Jun-15 with 762 stores, 650 of which were conventional stores, 111 virtual stores and one website. In 2Q15, the Company opened three new conventional stores (one in Southeast and two in Northeast). From these stores, 41% are not yet mature.

Same-store sales, including e-commerce, fell by 12.8% in 2Q15 YoY, while retail sales decreased by 11.5% for the quarter. Excluding TV sales effect, which was affected by the strong comparison basis of the World Cup, total sales of other categories increased 0.6% in the quarter.

Sales on Luiza Card increased to 20% in 2Q15 from 17% in 2Q14, as percentage of total retail sales, contributing to strengthen the loyalty strategy of the Company. Due to more conservative credit approval policy, DCC (direct credit to consumers) participation decreased to 12% of sales in 2Q15 compared to 17% in 2Q14. The Company maintains its policy to limit interest-free installment sales on the Luiza cards to 15% of total sales.

**About Magazine Luiza**

Founded in 1957, Magazine Luiza is one of Brazil's largest retail chains focused on durable goods, actively engaged in Brazil's low income classes. To strengthen its relationship with its customers, Magazine Luiza innovated in 2001 by entering into a partnership with Itaú Unibanco to create Luizacred. In 2005, Magazine Luiza once again innovated when it became the first retailer to control an insurance company, Luizaseg, in partnership with Cardif, of the BNP Paribas group. And in 2010, Magazine Luiza acquired Lojas Maia, one of the largest retail chains with a presence in all the states across Northeast Brazil – the fastest growing region in the country. In June 2011, it acquired Baú da Felicidade stores.

**EBITDA, Adjusted EBITDA and Adjusted Net Income**

EBITDA (earnings before interest, income and social contribution taxes, financial income and expenses, depreciation and amortization) is not a financial performance measure under the accounting practices adopted in Brazil. Because it does not consider expenses intrinsic to the business, EBITDA has limitations that affect its use as a profitability or liquidity indicator. EBITDA should not be considered an alternative to net income or operating cash flow. In addition, EBITDA does not have a standard meaning, and our definition may not be comparable with the definitions adopted by other companies. Non-recurring results used to calculate adjusted EBITDA and adjusted net income should not be considered an alternative to EBITDA and net income in accordance with the accounting practices adopted in Brazil.
