**1<sup>nd</sup> Quarter 2017 Earnings Release (IFRS equivalent)**

## 1Q17 HIGHLIGHTS

**E-commerce grew 56% achieving 28% of sales**  
**Physical stores increased 12% in SSS**  
**Total sales grew 23% to R\$3.4 billion**  
**EBITDA went up 61% to R\$232 million (margin of 8.3%)**  
**Net income increased from R\$5 million to R\$59 million**  
**Net debt decreased R\$415 million in LTM**

- **Consistent market share gain.** In 1Q17, consolidated gross sales grew 23.0% to R\$3.4 billion, as a result of 21.6% growth in same-store-sales (+56.2% in e-commerce and 11.6% in brick-and-mortar stores). Again, this quarter, Magazine Luiza gained market share in all channels and in main product categories. According to the IBGE (PMC), the nominal sales of furniture and domestic appliances increased 2.1% for the first two months of the year, compared to higher growth of the Company during same period.
- **Accelerated e-commerce growth.** The e-commerce sales were up 56.2% in 1Q17 (compared to the market growth of 8.1%, according to E-bit's data), reaching a record of 28.4% in the Company's total sales. This market share gain resulted from: (i) increased sales from mobile platforms, especially the app, which reached 5.4 million downloads, (ii) higher conversion rate in all e-commerce channels, due to a better assortment, reduced disruptions, improved pricing indicators and reduced delivery times, (iii) ongoing capture of the benefits of the implementation of multi-channel projects, highlighting the In Store Pickup and (iv) the maintenance of the high level of service with the permanence of the RA1000 service excellence seal.
- **Gross profit evolution.** In 1Q17, gross profit grew 21.8% to R\$832.4 million. Gross margin decreased 50 bps, from 30.2% in 1Q16 to 29.7% in 1Q17, chiefly due to: (i) higher percentage from e-commerce over total sales (600 bps over 1Q16) and (ii) flat gross margin in all channels. Solid sales growth with flat margins per channel was the result of a better commercial assertiveness, inventory management and greater rationality of prices in the e-commerce and the brick-and-mortar store markets.
- **Significant dilution of operating expenses.** In 1Q17, operating expenses were diluted by 2.3 percentage points, to 22.2% of the net revenue, the lowest level of operating expenses in recent years. This dilution reflects the e-commerce growth, the operating leverage in the brick-and-mortar stores and the maturation of cost-saving projects adopted by the Company, including the Zero Base Budget (ZBB) and Expenses Management Matrix (EMM).
- **EBITDA and net income solid growth.** In 1Q17, the total sales growth in all channels, the positive contribution from e-commerce, the dilution of the operating expenses and better equity income contributed to a significant 60.9% increase of EBITDA to R\$231.9 million (+1.9 percentage points to margin of 8.3%) and the net income to R\$58.6 million (ROE of 36%).
- **Improved working capital and reduced net debt.** In 1Q17, due to an improved inventory turnover and a better balance between inventories and suppliers, the Company enhanced its working capital needs adjusted by R\$380.6 million in the last 12 months. During same period, the adjusted net debt went down from R\$858.7 million in Mar/16 to R\$443.7 million in Mar/17, a relevant R\$415.0 million decrease, reducing the adjusted net debt/EBITDA ratio from 1.6x to 0.5x, respectively.
- **Improved results of Luizacred.** The portfolio overdue by more than 90 days (NPL 90) improved 3.6 percentage points, or 8.8% of total portfolio in Mar/17. Despite a conservative credit policy, Luiza Card sales in Magazine Luiza were up 44.7% in 1Q17. Due to such growth and improved delinquency indicators, Luizacred's net income grew 50.5% to R\$39.4 million in 1Q17, with ROE of 28%.

## MESSAGE FROM THE MANAGEMENT

The first quarter of 2017 should pose a gradual recovery of Brazil's economy. The scenario is still very challenging, but there are few signs of improvements in economic activity. Our sector sales, which slowed down over the past two years, resumed growing, even if modestly. Within such scenario, Magazine Luiza, which was already expanding by gaining market share, speed up its pace and recorded its highest quarterly growth of the past years. Total sales grew 23%, compared to the market growth of nearly 2%. This was the 5<sup>th</sup> consecutive quarter of sales expansion, evidencing the consistency of our strategy and execution.

For Magazine Luiza, the competitive scenario was relatively positive this first quarter. Due to the economic crisis of the last years, most of the peers are seeking to preserve their profitability, by adopting more rational pricing policies. In this regard, we were more competitive, as we have always adopted a growth strategy with sustainable profit. In addition, the small and medium enterprises continue shutting down stores or facing supply and consumer credit hardships, favoring a scenario of consolidation in the sector, where more prepared companies gain market share, which we believe is our case.

Our results highlight was again the e-commerce, which grew 56% in the first quarter of 2017, the highest growth rate over the past five years. The e-commerce contribution to total sales increased 600 bps year-on-year and achieved almost 30% of our sales. At the same time the e-commerce recorded its highest contribution, we again managed to increase the Company's profitability, evidencing the positive contribution of online channel to our business and the Company's successful fully integrated multichannel strategy.

Like e-commerce, the brick-and-mortar stores significantly contributed to the Company's performance and again recorded double-digit growth rate under the same-store sales concept (+12% in 1Q17). The virtual stores and Brazil's northeast region were the highlights in terms of growth. We inaugurated four new stores, all of them in the northeast, and we renovated other 46 stores during such period.

In addition to sales growth, we point out the quality and the sustainability of our results. All our sales channels recorded growth, we maintained gross margin in the channels, we strongly diluted operating expenses, we improved the profitability of our partnerships (Luizacred and Luizaseg), we diluted operating expenses, we multiplied net income, we optimized our working capital, we improved investments in technology and we significantly reduced our indebtedness. These results, including the highest quarterly income of our history, evidence the strength of our digital transformation strategy.

### Digital Transformation

The Company's main strategy for the next five years is digital transformation. Our objective is to transform Magazine Luiza, from a traditional retailer with a digital area into a digital platform, with physical points-of-sale and warmness. Such strategy is based on five pillars: (i) digital inclusion, (ii) brick-and-mortar stores digitalization, (iii) multichannel, (iv) transformation of the website into a digital platform and (v) digital culture.

We point out few first quarter's results and initiatives: (i) Relevant growth of smartphones and Smart TVs categories, (ii) *Lu Conecta*: considerable increase of *Lu Conecta* sales, our service to set up smartphones, install apps and antivirus, besides a 24-hour call center, (iii) Wi-fi: customer free wireless access to the Internet at all our stores, (iv) *Mobitec*: implementation of new technology accessories at all stores by the end of the second quarter, (v) Postpaid plan: implementation of proprietary sales system of operator postpaid plans at all stores, focused on offering connection to the Internet at an accessible price to our customers, (vi) Smart Buyback: inclusion of another partner in the repurchase of used mobile phones, (vii) Mobile Sales: implemented at all stores, (viii) Mobile Pinpad: under rollout process by the year's end, (ix) Mobile Stockist: implementation of multichannel inventory management system for all stores, (x) Mobile Delivery: implementation in 90% of Luiza network's micro-carriers, thus, allowing to tracking customers' orders and (xi) In Store Pickup: implemented in all stores with significant increase in the number of eligible products and percentage over e-commerce total sales.

### Marketplace

We concluded the acquisition of Integra Commerce, a technology startup specialized in relationship integration and management between sellers and marketplaces. With such acquisition, we now offer functionalities to our partners, such as sales management, pricing, inventory and freight management, including product tracking, besides reducing the platform's overall costs. This startup company is a reference in the software-as-a-service (SaaS) sector, allowing partners to manage and optimize their daily routines. Integra is employed by more than 200 sellers, including MadeiraMadeira, Época Cosméticos, Casa América, Whirlpool and DBestShop. Thus, we multiply our entry capacity of new partners, besides advancing in our strategy of becoming a digital platform.

We carry on our expansion process of offering third-party products in our marketplace. We achieved over 220,000 third party SKUs, more than 98% additional to our assortment. We exceeded the record of 100 partners of several categories and sizes, such as: Spicy, Avon, ClimaRio, Havan, Connectparts, Onofre, Saúde Já, Lojas Mel, MadeiraMadeira, Drograria SP, Drograria Pacheco, Mondelez, amongst others.

#### **Luizalabs**

The rapid implementation of these projects is chiefly due to the strengthening of our digital culture and our capacity to develop technologies. In this regard, we took a step forward this quarter by incorporating the Corporate IT department, in charge of backoffice systems into our technology and innovation laboratory, the Luizalabs. We believe that such integration will increase even more our capacity and speed to deliver digital transformation technology projects. It is worth mentioning that with Integra acquisition, we also incorporate more than 20 qualified professionals with solid expertise of the marketplace to Luizalabs' team.

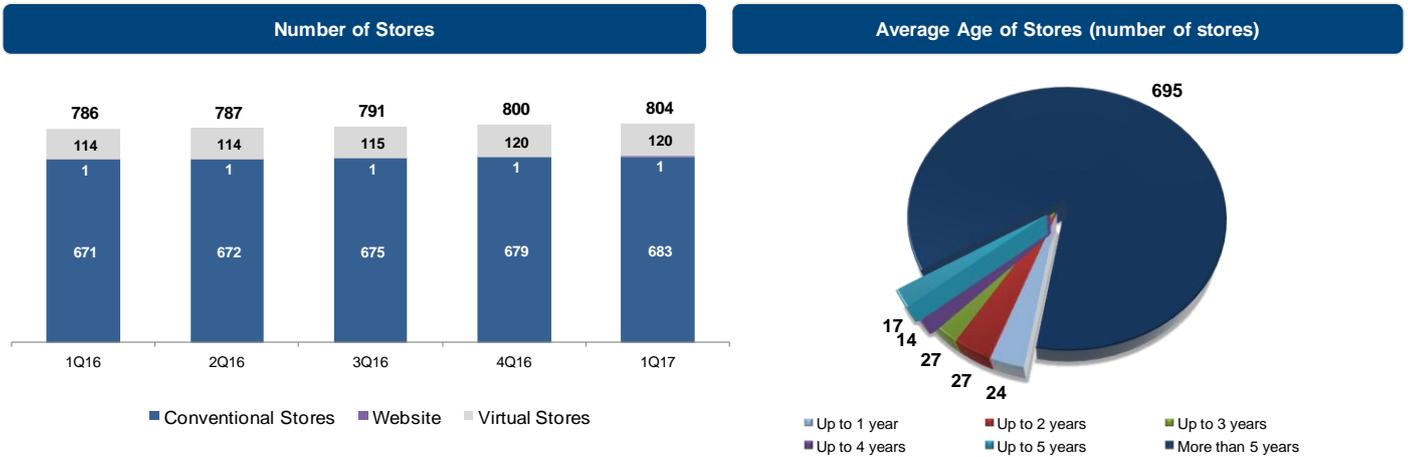

#### **Final Considerations**

The results recorded this first quarter of 2017 renew our confidence in our long-term strategy, our efforts to increasingly connect with our customers, and the consistency executed by our team in the digital transformation plan. We thank again the confidence of our customers, employees, shareholders, suppliers and partners.

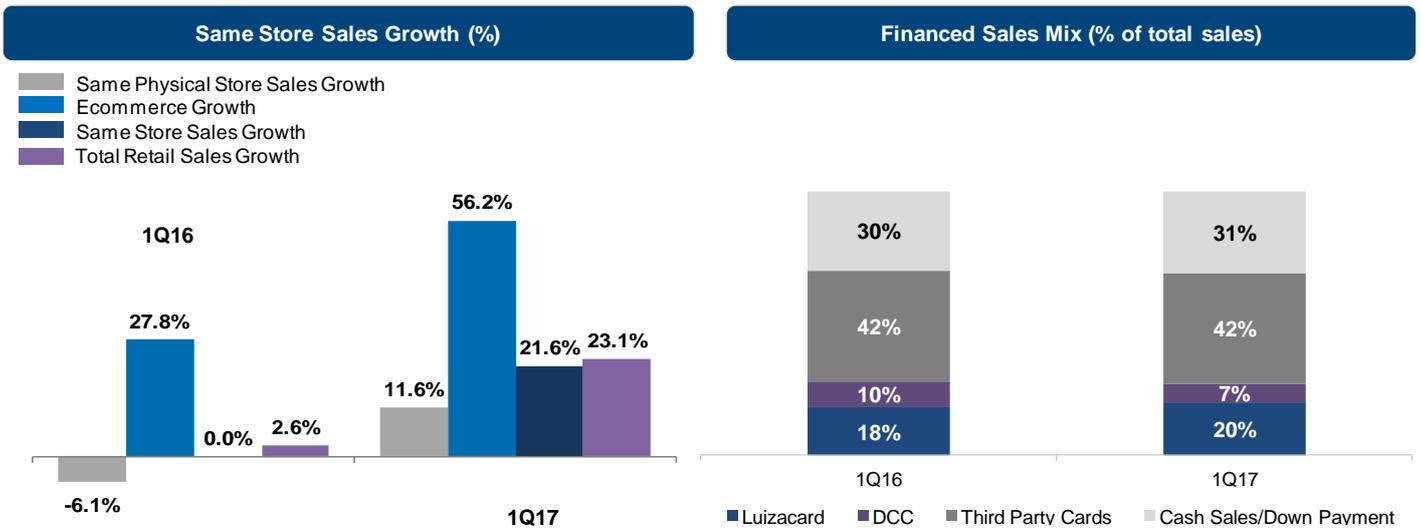

## **THE MANAGEMENT**

## OPERATING AND FINANCIAL PERFORMANCE

Magazine Luiza ended Mar/17 with 804 stores, 683 of which were conventional stores, 120 virtual stores and one website. In the 1Q17, the Company inaugurated 4 conventional stores in the Northeast region. In the last 12 months, the Company opened 18 new stores. Considering our total number of stores, 14% are not yet mature.

Gross same-store-sales were up 21.6% in 1Q17 as a result of an 11.6% increase in brick-and-mortar stores and 56.2% in e-commerce. This growth reflects a consistent e-commerce performance and sequential improvement in brick-and-mortar store sales.

Luiza Card total sales increased 200 bps to 20% in 1Q17, contributing to the Company's strategy of increasing customer loyalty. Due to a more conservative credit policy, the percentage of DCC (direct credit to consumers) over sales went down from 10% in 1Q16 to 7% in 1Q17.

## Gross Revenues

(in R\$ million)	1Q17	1Q16	%Chg

## Selling Expenses

Selling expenses totaled R\$508.6 million or 18.1% of net revenues in 1Q17 (80 bps lower YoY), due to a rigorous control of expenses, productivity gains, reduced marketing expenses, renegotiation of lease contracts and logistics services, besides a complete revision of several operating expenses.

## General and Administrative Expenses

General and administrative expenses came to R\$120.1 million or 4.3% of net revenues in 1Q17 (60 bps lower YoY), due to optimization of the administrative processes.

## Provisions for Loan Losses

Provisions for loan losses reached R\$5.6 million in 1Q17 (10 bps lower YoY).

**LUIZACRED**

**Operating Indicators**

Luizacred is a joint venture between Magazine Luiza and Itaú Unibanco, responsible for financing the majority of the Company's credit sales. Magazine Luiza's main role is employee management and customer service, while Itaú Unibanco is responsible for funding of Luizacred, drafting the credit and collections policies and back office activities, such as accounting and treasury.

In Mar/17, Luizacred had a total base of 3.3 million cards issued. In 1Q17, Luizacred maintained its conservative credit approval rate. It is worth noting that as the Luiza Card customers are more loyal than others, the sales using Luiza Card inside our stores grew 44.7% in 1Q17. Due to a conservative credit policy, especially with respect to DCC (direct credit to consumers), its sales decreased from R\$92 million in 1Q16 to R\$84 million in 1Q17.

Luizacred's credit portfolio, including credit cards, DCC and personal loans, totaled R\$4.5 billion in 1Q17, increasing 7.9% YoY, highlighting Luiza Card portfolio, which was up 15.2% to R\$4.2 billion, while DCC portfolio went down 45.5% to R\$264 million, following Luizacred's strategy to focus the Luiza Card.

## Revenue from Financial Intermediation

In 1Q17, revenues from financial intermediation went down 6.7% YoY due to 37.2% decreased revenues from direct consumer credit (DCC) segment.

## Provision for Loan Losses

The arrears indicators continue improving. The portfolio of loans overdue from 15 to 90 days (NPL 15) accounted for 3.7% of total portfolio in Mar/17, improving 60 bps from Mar/16, due to a more conservative credit policy.

Even amid an ongoing challenging macroeconomic scenario, the loan portfolio overdue by more than 90 days (NPL 90) reached 8.8% of total portfolio in Mar/17 versus 12.4% in Mar/16 (-360 bps) and 9.5% in Dec/16 (-70 bps). Provisions for loan losses expenses net of recovery accounted for 2.3% of total portfolio in Mar/17 versus 3.2% in Mar/16 and 2.4% in Dec/16. We highlight the portfolio coverage ratio increased to 132% in Mar/17 from 121% in Mar/16.

Note: for better comparability and analysis of the loan performance (NPL), the Company now discloses the breakdown of the portfolio by arrears criterion, while it continues disclosing the portfolio breakdown by risk level to the Central Bank.

### Financial Intermediation Gross Results

Gross margin from financial intermediation totaled 44.7% in 1Q17, an 8.5 percentage point improvement over 1Q16, mainly due to lower provisions in view of improved arrears indicators.

### Other Operating Revenues (Expenses)

Other operating expenses totaled R\$55.4 million in 1Q17, a nominal decrease of 10.2% YoY, chiefly due to improved revenues from services rendered and productivity gains.

### Operating Income and Net Income

In 1Q17, Luizacred recorded operating income of R\$71.7 million (9.3 percentage points higher YoY), equivalent to 25.2% of financial intermediation revenue.

In 1Q17, Luizacred's net income was up 50.5% to R\$39.4 million (ROE of 28%).

### Shareholders' Equity

In compliance with the accounting practices established by the Brazilian Central Bank, considering the minimum provisions required by Law 2682, Luizacred posted net income of R\$42.8 million in 1Q17, with a shareholders' equity of R\$626.3 million in mar/17. As a result of adjustments required under IFRS, specifically additional provisions for expected losses, net of taxes, Luizacred's shareholders' equity for effects of Magazine Luiza's financial statements came to R\$579.8 million.

**About Magazine Luiza**

Founded in 1957, Magazine Luiza is one of Brazil's largest retail chains focused on durable goods, actively engaged in Brazil's low income classes. To strengthen its relationship with its customers, Magazine Luiza innovated in 2001 by entering into a partnership with Itaú Unibanco to create Luizacred. In 2005, Magazine Luiza once again innovated when it became the first retailer to control an insurance company, Luizaseg, in partnership with Cardif, of the BNP Paribas group. And in 2010, Magazine Luiza acquired Lojas Maia, one of the largest retail chains with a presence in all the states across Northeast Brazil – the fastest growing region in the country. In June 2011, it acquired Baú da Felicidade stores.

**EBITDA, Adjusted EBITDA and Adjusted Net Income**

EBITDA (earnings before interest, income and social contribution taxes, financial income and expenses, depreciation and amortization) is not a financial performance measure under the accounting practices adopted in Brazil. Because it does not consider expenses intrinsic to the business, EBITDA has limitations that affect its use as a profitability or liquidity indicator. EBITDA should not be considered an alternative to net income or operating cash flow. In addition, EBITDA does not have a standard meaning, and our definition may not be comparable with the definitions adopted by other companies. Non-recurring results used to calculate adjusted EBITDA and adjusted net income should not be considered an alternative to EBITDA and net income in accordance with the accounting practices adopted in Brazil.
